- 6. Public Hearing: The purpose of this hearing is to hear public comments on a proposed Conditional Use Permit (CUP) to build a meat processing plant. The location is parcel # 205-54-008. This location is in the airport industrial park. The plan is modular placed together to create different areas for a drop off zone, for cleaning , hanging, cutting and a store front for pick up and is FDA approved. Phase 2 will be for the growth by adding more modular as needed, for different or more of the same services. The FDA will have to do constant inspections and will have an office on site. Waste will be removed on a regular basis. Concerns included, where will the cattle be from, is cattle the only meat to be processed, and will this affect the walking path? The hope is to use locally grown beef, but will also process wild game. The walking path will not be impacted at all as it is established.**
